Brainstorming:

o Make user choose from different images in varios groups and have different outcomes and a final big result (like an elaborated personality test) -----> using mostly images (*)

o Mini game, can be a main character that avoid obstacles
  ↳ Also can be a memory game -----> use images and graphics (?)

o Typing interactivity : You have words option that you have to describe using certain amount of characters, after that your paragraph will turn into a visual representation of the main word used. (!)

o Game idea 2: Decorate a party (or different scenarios) before the time runs out → Different levels and 'ending scenarios' (?)

o Fairytale interactive storytelling : Following maybe a princess story in which one can made decisions. (x)
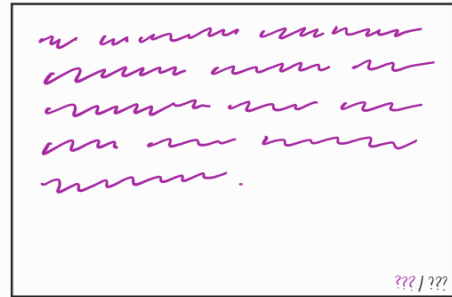

Idea Nº1: Writing Challenge

①

¡Choose your word!

butterfly

②

Describe butterfly in ??? characters

??? / ???

SAME TEXT

(just in case is unclear -_-')

③
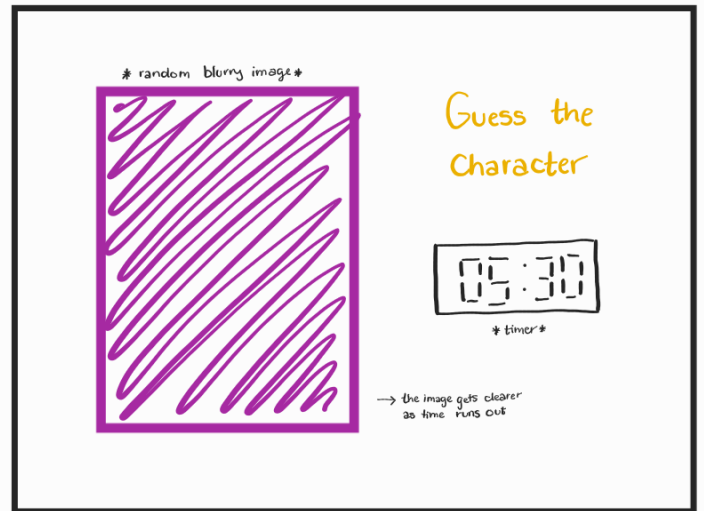

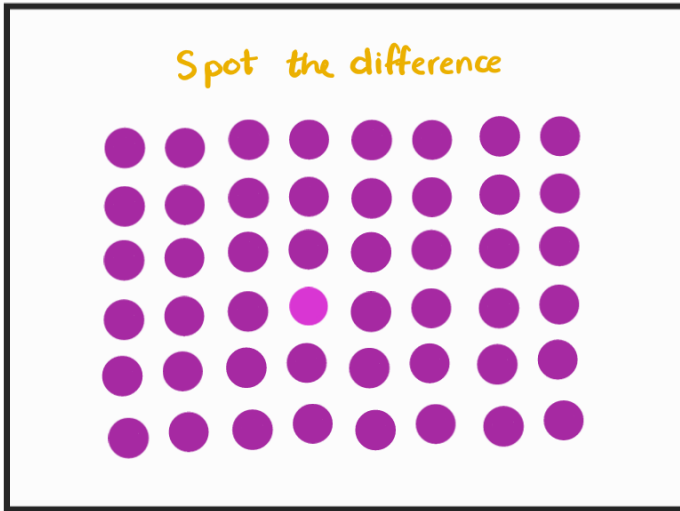

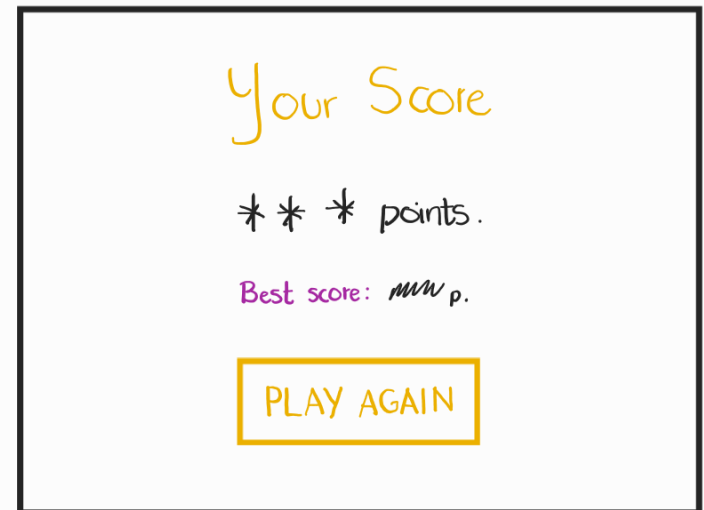

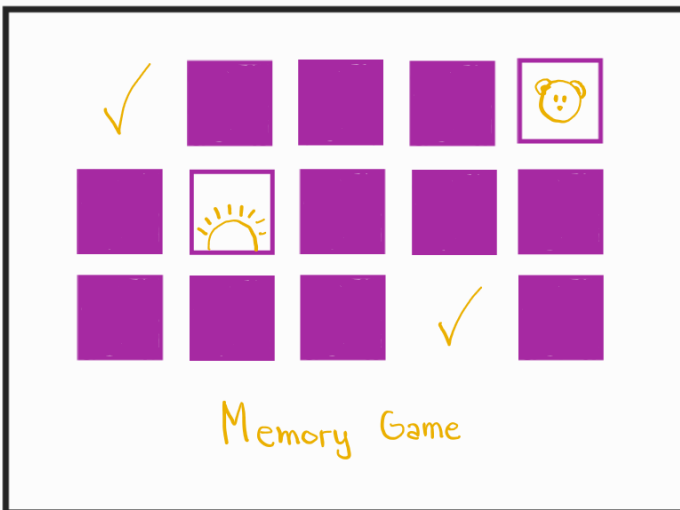

* Cool Transition :D *

④

Idea Nº2: Mental test minigames

Spot the difference

Guess the Character

* random blurry image *

`05:30`
* timer *

→ the image gets clearer as time runs out

* different interactive activities *
* mostly using images *

Memory Game

Your Score

*** points.

Best score: MMM p.

PLAY AGAIN

* Scores can be stored *

Idea N°3: Game Idea :)

¡Help organizing the penguin's b-day party!

good ending

bad ending

¡the Party was a success! :D

¡The Candles were too close to the balloon!
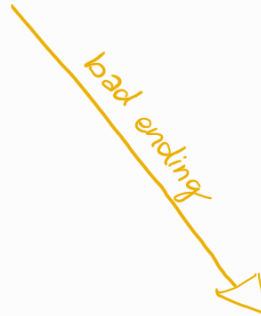

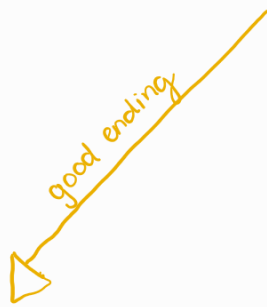

* can be various scenarios like different levels *
